

Bespoke Technique For Copyright Digital Images & Secure Communication

By Mahimn Bhupendrabhai Pandya

LAP Lambert Academic Publishing Nov 2014, 2014. Taschenbuch. Book Condition: Neu. 220x150x5 mm. Neuware - Digital assets are very easily communicated publically usable communication channel. They are subjected to various types of threats. There are existing protection mechanisms with limitations. There is constant need to minimize the limitation to improve status of protection mechanism and secure communication. For this to happen, the current work has its contribution to enhance the protection by way of improvement in watermarking techniques and its implementation. The improved technique - Digital Watermarking Algorithm Using RMI as watermark is one of the outcome of this work. In order to protect and enhance security of secret message during its communication on public channel the domain of steganography is extended incorporating innovative technique - Text File Embedment Technique for Digital Watermarking and Secret Messaging. As per the thumb rule, by increasing the complexity in an algorithm, the security level can be increased. The proposed work is maintaining the tradeoff between the complexity level of algorithm and security level of message. The third work output has given two algorithms: AMEADT to protect secret message and AMEAET to embed encrypted text to digital image. 84 pp. Englisch.

Reviews

An exceptional pdf and the typeface utilized was fascinating to read through. It can be written in straightforward words and phrases instead of confusing. I am just quickly could possibly get a delight of looking at a written ebook.

-- Prof. Arlie Bogan

It is in a single of the best book. This is for those who state there had not been a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Dr. Barney Robel Jr.
