Commercial houses, poultry-supply dealers, and others publish much useful material. The home projects.--Have the pupils carry out with care the oest obtainable advice on each step connected with this part of their projects. Incubation is a critical process. It is the opportunity to introduce pure-bred stock. Carelessness during the incubation period endangers the success of the next year of the project. This part of the project should rarely he omitted, although there are circumstances under which it is wise to buy chicks instead of running an incubator. Exercises.--Utilize pamphlets issued by poultry-supply houses. If many pupils are to use an incubator, it may he desirable to have a demonstration at school or elsewhere. The teacher should not take the authority to have an incubator run at school, because...
