Reviews

*It is an awesome ebook which i actually have at any time read through. It usually fails to charge excessive. It is extremely difficult to leave it before concluding, once you begin to read the book.

Brand New Book ***** Print on Demand *****.Excerpt from Manual of Marine and Inland Insurance: For the Use of the Agents of the Protection Insurance Company in the Mississippi Valley The hazards of insurance against loss or damage on the cargoes of sea vessels, and on the cargoes of steamboats upon the Western waters present a wide field of operations for the agent who is entrusted with Marine as well as Fire powers. There are difficulties however in the management of this department of the business which are peculiar to itself, requiring on the part of the agent a most thorough attention to every circumstance of the risk, and a prompt but cautious judgment in some cases upon a partial representation, and when the actual condition of the property is unknown. This is a marked feature of Marine risks, in the strict meaning of the term, and on this account as well as the possibility of a heavy conjunction of risks taken at our several agencies on one vessel between New Orleans and Eastern ports, we urge your special and careful attention to every application before it is accepted, and a rigid observance of the annexed rules and suggestions. The risks of inland transportation in the Mississippi Valley present also difficulties which are peculiar to the country, and render the application of the principles of Maritime insurance extremely difficult, and in some cases impossible. In what other country or district of country are to be found these almost innumerable and extensive navigable streams? Where such an accumulated number of steamboats? Where shall we find such a strange, unmanageable and frail contrivance as a Western Flat Boat to transport a cargo 2000 miles and in...
