International Labour Office. Hardback. Book Condition: new. BRAND NEW, Security in Ports,ILO and IMO Code of Practice, International Labour Office, This Code of Practice, developed jointly by the International Labour Office and the International Maritime Organization, contains a guidance framework for the formulation and implementation of security strategies and the identification of potential security risks. Aimed at governments, employers and workers, it is intended to promote a common approach to port security amongst Member states. The guidelines deal with a variety of issues including security roles, tasks and measures to deter, detect and respond to unlawful acts against ports serving international traffic and maritime operations, as well as considering security awareness and training. Practical examples of a port security assessment and a port security plan are also included. This code follows, where possible, the practice and principles identified in the IMO's ISPS Code and acts as a valuable, complementary guidance document to it, by extending consideration of port security beyond the area of the port facility into the whole port.
