NUTRITION TRANSITION IN MAURITIUS

DOWNLOAD

LAP Lambert Acad. Publ. Nov 2010, 2010. Taschenbuch. Book Condition: Neu. 220x150x4 mm. Neuware - Nested in the Indian Ocean, Mauritius hosts a multi- cultural population, consisting of Asian Indians, Creoles predominantly of African ancestry and Sino-Mauritians of Chinese descent. Following its independence, the country gradually flourished from a low income, agricultural-based economy to an export-oriented upper-middle income nation which boasts one of the most remarkable economic track record in sub-Saharan Africa. Beyond economic prosperity, these changes also triggered shifts in dietary patterns and levels of nutrition-related chronic diseases reached unprecedented highs. Indeed, with its large population of Asian descent, Mauritius has one of the highest incidence of Type 2 Diabetes in the World. This book contemplates the nutrition transition (Westernisation of diet) that Mauritius has been undergoing as a consequence of rapid modernisation. Dietary patterns and concurrent changes in prevalence of chronic diseases Obesity and Type 2 Diabetes typically associated with such a transition are examined. 68 pp. Englisch.
